Fall 2024 News

Soil Tests 50% off in September Extended:

Since we are late sending this mailing off, we decided to do our own soil test sale by extending the half price soil test sale into October. Throughout the month of October, enjoy a 50% discount on all soil tests submitted to Waypoint Analytical in Leola, PA with a Fertrell Submission Form. Submit one test or ten, the amount doesn't matter! Your samples must be delivered to Martins Farm Supply by Friday, October 25th to qualify for 50% off.

Why use our soil tests instead of the free ones from university labs? Our tests include base saturation, pH, organic matter, and trace minerals. This gives our agronomy team all the information they need to give you the best recommendations for your fields. And remember, our recommendations and consultations are free - you just cover the cost of testing!

Ask us for soil bags and for tips and instructions on taking a soil test. Also we may be able to provide you with a soil test probe.

We can take the samples for you if we are in your area and have time. If we take the samples, it's an additional \$10 (per stop, not per sample). Let us know if you have any questions or complaints.

October Forage Test Sale 50% off:

Samples must be at Martin's Farm Supply by October 25th to qualify for 50% off. We can also take the samples for you if we are in your area and have time. If we take the samples, it's an additional \$10 (per stop, not per sample).

Albert Lea / Blue River Seeds:

Early order and pay schedule,

10% until October 25th

8% until November 25th

5% until January 25th 2025

Expect to get your prepaid seeds before planting time Spring 2025.

Ask for details and pricing.

Instock clearance seeds 10—25% off:

See price list or ask one of us for details.

Vermont Compost Potting Soil Sale:

See page 4

Nolt's Spreading Sale: Screened Raw Dry Chicken Manure in bags, **6% off until November 15th**. This chicken manure flows very well for a non-pelleted chicken manure. Order and pay now for your needs next spring and know that you have it ready to go!

Alfalfa Meal Sale: 10% off on over stock musty alfalfa meal that we are selling for fertilizer. It is excellent for its microbial and nitrogen fertilizer value. It is also good for feeding things like pill bugs to distract them from eating other plants. Sale on until end of December or while supply lasts. Additional discount on 20 bags or more.

Pricing: Due to the very unstable prices of many products, some of my vendors have switched to not guaranteeing pricing until the product is shipped, sometimes even on prepaid items. Prices can change at any time. Therefore I need to pass the same rule on. I know this can make things hard to plan.

Vitamin Shortage: Due to a fire and explosion at a BASF Plant in Germany on July 29, some of the vitamins used in some of our feed and mineral mixes took a major price increase. This is affecting the price of some of our feed and minerals. Prices are expect to change without notice and limited qtys are also expected so we may have delays in getting certain products. Only some vitamins were affected so not all products have increased in price. This is expected to be a temporary situation but is expected to last for the rest of the year and possibly the first part of 2025.

'Free Delivery' see page 6

I hope and pray that things go well for you and your farm.
Thanks for your business and support.
Melvin

Vermont Compost Organic Potting Soil Sale

\$25 per sling bag off or \$1 per pail off

Must be paid for by November 15th 2024

Must be picked up or take delivery by March 30 2025

Fort Vee – All Purpose Compost Based Potting Mix: Fort V is what I sell most of. My customers have excellent results with this potting soil. Excellent for seed starting, soil blocks, trays, pots, and containers. Usually, no additional fertility is required. If roots have filled the container and fertility is needed, top-dress with Compost Plus and water in.

Screened Composted Manure: The basis for all Vermont Compost's mixes. Professionally composted. Raw materials are assembled in windrows, monitored for temperature and air supply, and turned as needed. Like all our products, manure compost is tested for maturity and is free of live weed seed. Manure Compost is screened on a 7/8" trommel to ensure a consistent, refined product.

Compost Plus -- Container and Transplant Booster mix: This amendment does not burn roots and is ideal when applied during transplant, as a midseason topdress, or to rejuvenate potted plants. Apply as-is and water-in or create a compost tea with warm water before application. As a general rule, mix about 1 cup of Compost Plus into the transplant hole before planting heavy feeders like tomatoes or cannabis. For depleted potting soils, mix at a 1:4 ratio (1 part compost plus per 4 parts soil). For plants that are exhibiting signs of nutrient deficiency, sprinkle a handful or two over the root zone and water in.

Jolly Roger -- Flowering and Fruiting Container Mix: Jolly Roger is specifically crafted for container cultivation of plants with high nutrient needs, including cannabis, tomatoes, and hemp. A compost-based mix, Jolly Roger combines the benefits of a living soil with the plant-available nutrients and minerals that a heavy-feeding cultivar requires. Transplant into Jolly Roger once plants are

fully established. To extend vegetative time and produce the highest yield per plant, choose a container as large as the plant you hope to grow. Jolly Roger also excels in “sea of green” grows with smaller containers and shorter vegetative periods. Jolly Roger is not intended for seeding or cloning. Consider Fort Vee or Fort Light for these applications.

Perennial Blend, and **Fort Light** are also available. Call if interested.

For more info on Vermont Compost products visit their website at vermontcompost.com/products.

Fort Vee, Compost Plus, Composted Manure are stock items. Pricing and availability is uncertain on all non-stock or out-of-stock product. The sale discount on non-stock or out-of-stock product applies to the price at the time that we purchase the product.

Fort Vee: (1-15) 5 gal pails (packed and level) = **\$14.49/pail sale price**, (\$15.49/ pail regular price).

(16+) 5 gal pails (packed and level), (32 pails = approx 1 yd) = **\$13.47/pail sale price**, (\$14.47/ pail regular price).

2 yd sling bag = **\$698.51 sale price** (\$698.51 divided by 64 = \$10.91 per pail equivalent) (\$723.51 regular price).

4 or more 2 yd sling bags = **\$672.88 sale price**, (\$672.88 divided by 64 = \$10.51 per pail equivalent)

A 5 gal pail packed and level = 25 Qt standard potting soil measure.

Compost Plus: 2 yd sling bag = **\$784.67 sale price**, (\$809.67 regular price)

Mon - Fri 9-5 Sat 9-12

Ordering & Delivery Info.

Monday is for taking orders and paperwork. Tuesday, Wednesday, and often Thursday and Friday are for grinding and mixing feed. We often start doing deliveries Tuesday and keep delivering till done. Often we are still doing deliveries as late as Saturday. If possible, place your order by Monday, although we still try to fulfill orders placed later in the week.

When ordering, include your name, address or phone number, what you want, how much, and when you need it by. Orders without a need by date commonly get pushed off until last.

If you want the same thing repeatedly on a schedule, let us know and we'll try to bring it unless you make changes.

Burke: \$10 delivery fee if your order is under \$400. Free if over \$400. Delivery every four weeks.

Bangor: \$10 delivery fee if your order is under \$400. Free if over \$400. Delivery usually two weeks.

Bombay/Helena: \$10 delivery fee if your order is under \$400. Free if over \$400. Delivery every week.

Russell/Canton: \$10 delivery fee if your order is under \$400. Free if over \$400. Delivery every two weeks.

Heuvelton/Canton: \$10 delivery fee if your order is under \$400. Free if over \$400. Delivery every four weeks.

Gouverneur/Canton: \$10 delivery fee if your order is under \$400. Free if over \$400. Delivery every four weeks.

South of St Lawrence Co, (Philadelphia, Lafargeville): \$35 delivery fee if your order is under \$400. \$25 if over \$400. Delivery every four weeks. Orders (south of St Law Co.) with the 'Ton Trigger' discount applied need to have delivery calculated manually. Figure between \$25 and \$100 delivery fee. The factors to consider are what truck (and trailer) needs to haul it. How full is that truck (and trailer)?

We focus on supplying the small farms. And filling in where needed on larger farms, (to supply until a late bulk truck comes, to supply one ingredient where the farm produces the other feeds itself, etc.) We put all our feed into bags. For orders over 2-3 tons, consider buying from a bulk truck delivery company like Keystone Mills.

**Ask for a copy of our
calendar with our delivery dates on it.**

Feed Mill News

Lakeview Organic Grain has stopped selling feed as they did in the past. Therefore we have switched to Keystone Mills as our main supplier for the grains that we can't get locally. Keystone Mills has a slightly different set of products than what Lakeview has. Keystone Mills has many products. Let us know if you are interested in any of those. Go to www.keystonemills.com or ask us for more info.

Faubert feeds also quit selling organic feed to our area. With both Lakeview and Faubert quitting at the same time demand for our feed has increase a lot. In order to help us keep up with the increased demand we are making some improvements to our dock and other areas so things are more efficient.

Priority Order

#1: God's Words and wishes.
#2: Man's words and wishes.
God's Words are most important.

Certified Organic Feed Local and Quality

**We stock the standard feed mixes you are likely to need.
Or we can make a custom mix to fit your specific needs.
Please stop in or ask for more details.**

Wanted: Ayrshire, Brown Swiss, or Milking Short-horn milk cow.

Preferably in milk or ready to calve soon and preferably under 5 years old.

We are also looking for a ram.

Organic Feed Mill

Certified Organic, Local, Quality

We are a small certified organic feed mill supplying feeds for homeowners and small farms. We source our grains locally whenever possible. When we can't source locally, then we buy from Keystone Mills in the Finger Lakes NY and other places as needed.

We stock standard feed mixes like Layer, Broiler, and Pig feed. We can custom make most any feed mix you wish for. All our feed is whole or mash. We don't make pellets. We mainly use Fertrell for our ration support, however you can provide us with your ration as you please.

Our goal is to be able to provide you with a high quality product, for a good price, with good service.

If you are needing more than about 2 tons of feed at a time, consider buying from a bulk truck delivery company like Keystone Mills. We put all our feed into bags and totes.

It is common that we will have some extra feed left over when we make a custom feed mix. We commonly give you the extra at the price of corn. Let us know if you don't want that extra.

It is common for a little bit of grain or feed to be in an auger, or for whatever reason, for some grain to get mixed in with another grain. For example, there may be a few kernels of corn in with the soy. Or it may be mixed right out of the field. For example, there may be some peas in with the oats. So don't expect 100% purity on feed grade grain.

We can refill your used bags. Please don't return torn bags or bags with dirt falling off of them. Be sure your name is on your bags so we know who they go to. We only reuse your bags for custom orders. If we use your bags, we strive to remember to also give you a bag credit discount. Need used bags — we may have extra that we can give you. Are you a certified organic grower with corn, soy, oats, wheat, alfalfa, clover hay, etc for sale? Let me know. I may be able to buy from you. There are quality standards that need to be met — ask for details.

Returned bags:

Write your name on the open end of the bag so that we can see your name when it's up on the shelf.
